Libraries/Frameworks: React.js, Next.js, Redux.js, Chadcn/ui, Tailwind CSS, Material UI

Tools: Git/GitHub, Firebase, Figma, VS Code

Others: Responsive Design, UI/UX fundamentals

EXPERIENCE & PROJECTS

Ramsa E-commerce Platform | Next.js, TypeScript, Chadcn/ui, Tailwind CSS, Zustand, Telegram API

May 2025

- Built a fully responsive Arabic-first e-commerce platform for handcrafted coffee tools.
- Implemented advanced cart logic with Zustand, real-time order messaging via Telegram Bot, and Facebook Pixel tracking.
- Designed and developed UX-focused components using shadcn/ui and dynamic form validation with Zod.
- Created a background video hero section, smooth scroll sections, and animated order forms.
- ramsa.vercel.app

UI/UX Intern, Gammal.tech

June 2024 – July 2024

- Designed the interface for Rocketgoal planner app using Figma.
- Created a modern, responsive UI with attention to usability.
- View project on Figma

Loyal Shop | React.js, Firebase, MUI

May 2023

- Developed an E-commerce website to browse and purchase clothes.
- Implemented user authentication, cart management, and responsive layout.
- loyal-shop.com

CMS Dashboard App | React.js, Firebase, MUI

Aug. 2023

- Built an admin panel with full control over site content and settings.
- Emphasized mobile-friendly design and UI consistency.

Sakank Booking Platform | React.js, Firebase, MUI

Apr. 2024

- Developed an apartment booking platform with search and categorization features.
- Focused on clear UX and seamless responsiveness.
- sakank.shop
